THE GROWING SPACE SECTOR

The global Space economy which is valued at US\$385 Billion in 2020 is expected to grow to US\$428 billion by 2028, according to the findings by renowned consulting firm "EuroConsult". This growth is enabled by growing demand for space-based services, lowering of costs, miniaturisation and access to technology, liberal funding and enabling regulations around the world.

THE INDIAN PROMISE

India, currently with a 2% share of global space business, holds great promise as a destination for increased space commerce and also as a manufacturing hub. India's advances in space programmes and simplicity in operations steered by ISRO, have been highly applauded the world over.

UNRAVELING INDIA'S PROSPECTIVE

The formation of new regulatory body- Indian National Space Promotion and Authorisation Centre (IN-SPACe) by the Government last year to promote Hon'ble PM's 'self-reliant India' mission, is yet another endeavour to accelerate the advancements in space activities, and spur the growth of Indian private companies, improve space industry revenues and India's share in the global space market.

WELCOMING A NEW AGE

Upholding the vision of the government of India of enhancing private sector participation, Confederation of Indian Industry (CII), in association with the Indian Space Research Organization (ISRO), the Antrix Corporation Limited (ANTRIX) and New Space India Limited (NSIL) is organising the 2nd edition of International Space Conference and Exhibition scheduled from 13 Sept - 04 Oct 2021 Over Virtual Platform.

THE EVENT

With a focused theme- 'Building NewSpace in India', the international space conference and Exhibition will have Australia as partner country and the Netherlands as guest country. The event aims towards facilitating and strengthening industry participation in Indian Space Sector and serve as an ideal platform for industry and entrepreneurs to build technology as well as B2B partnerships.

FOCUSED AFFAIR

- 3 Days International Conference - Building NewSpace in India
- Virtual exhibition and panel discussions
- Facilitation and strengthening of private industries, intending to foray into Indian Space Sector.
- Ideal platform for industries and entrepreneurs to engage, build capabilities, nurture B2B partnerships
